Subject: **17<sup>TH</sup> ENGINEERING PRACTICE EXAMINATION (EPE) FOR THE PRESTIGIOUS TITLE OF PROFESSIONAL ENGINEER (PE)**

Pakistan Engineering Council (PEC) under PEC Act-1976 is pursuing professional development of engineers leading towards international recognition and cross border opportunities for the engineering professionals.

Under Professional Development of Engineers Byelaws-2008, acquiring CPD points (seminars, workshops, short courses, research papers etc.) and Engineering Practice Examination (EPE) are two mandatory requirements for the elevation of "Registered Engineer (RE) to "Professional Engineer (PE)". ***As per PEC Act, the "PE" has privilege over "RE" in terms of independently signing designs and preference for higher levels leading towards international licencing and practice.***

It is therefore mandatory to ensure above requirements of PEC Act by placing/ appointment of only **Professional Engineers (PEs)** against posts involving technical sanctions/ design approvals in both government and private sectors.

In this regard, **17<sup>th</sup> EPE (Spring-2021) will be held on 23<sup>rd</sup> May 2021 (Sunday)** simultaneously in five major cities (Islamabad, Peshawar, Lahore, Quetta and Karachi). The application forms, details and guidelines are available on PEC website ([https://www.pec.org.pk/epe\\_updated.aspx](https://www.pec.org.pk/epe_updated.aspx)).

It is, therefore, requested to kindly inform all Registered Engineers (REs) working in your esteemed organization to apply/ appear in the above mentioned Engineering Practice Examination (EPE) for elevation of their title from Registered Engineer (RE) to Professional Engineer (PE). PEC would highly appreciate your support and facilitation in this regard.
